Cybersecurity Analyst & Ethical Hacker

Aspiring cybersecurity analyst and ethical hacker seeking to apply knowledge in penetration testing, threat analysis, and vulnerability assessments to real-world challenges. Dedicated to continuous learning and contributing to secure digital environments.

WORK EXPERIENCE

Technovalley Software India Private Limited • Ernakulam • 07/2022 - 07/2024

Technovalley is a software development and consulting firm with global contracts, primarily focused on the Middle East. We specialize in skill development and internship-based consulting programs, training freshers in domains like Cybersecurity, Audit, Software Projects, ERP, Cloud, and more. Interns undergo rigorous screening and are prepared for client-specific roles before deployment on billable projects. We comply with Kerala IT Policy 2017 and do not charge for placements—only internship expenses. Our mission is to deliver job-ready professionals for short-term consultancy needs in niche technologies.

Cybersecurity Intern • Internship
